50 Crore +
Budget Single HVAC Project

The building industry is a fundamental cornerstone of the urbanization process; any building consumes large amount of energy and is not always built with subsequent efficient use of energy in mind. A typical office building HVAC system accounts for approximately 50% or more of total building energy consumption. So, an efficient HVAC system would help to save energy of the corresponding building.

We, Trittech are solely working in HVAC Industry for almost 20 years now and continuously introducing most efficient HVAC equipment & accessories in the market. Being the pioneer of VRF System and Magnetic Bearing Technology in Bangladesh, with the biggest engineering team, we are now the Largest HVAC Provider of the Country.

COUNTRY'S LARGEST HVAC PROVIDER

THE COMMERCIAL HVAC EXPERT

“Hundreds of completed projects, Thousands of installed units speak about our quality work”

Any Building Oriented Team

From tall commercial hotels, to complex hospital HVAC or large education campus, Trittech has all sort of building HVAC expertise. As every building is unique, so we provide customized suited solutions that perfectly match that buildings HVAC requirements.

Every Sort of HVAC Solution

Trittech offers complete HVAC solutions, from design, drawings to implementation. Specially for commercial HVAC Trittech offers all sort of HVAC support from large capacity chillers to light commercial VRF solutions.

100% Reliable Products

In terms of product reliability, Trittech has been working with renowned brands for more than 19 years. These brands are tested in hundreds of projects where we are getting good customer feedbacks. Trittech offers best possible product that perform with high reliability.

Solution Oriented Company

Trittech always give more focus on solutions rather than just providing products. Every individual project Requires perfect solution to get the best output. Trittech promote itself as a solution oriented company where we craft the best possible result from each of our projects.

Strongest Team in The Industry

Trittech has dedicated 20 HVAC engineers, 30 diploma Engineers, 15 Design engineers, 25 project implementation engineers. So over 100 dedicated engineering team made Trittech the strongest team in the industry. Also trittech has 500+ Years of combined HVAC experiences of the whole team.

Largest Maintenance Team

Trittech provides highest amount of importance in after sales service. That's why we have a separate servicing sister company called R4S Technical Solutions Ltd. R4S has the largest HVAC maintenance team in Bangladesh. It has well trained engineers and technicians to provide service to any brand Chiller or VRF AC. It also maintains online customer portal to serve the fast & best customer service experience.

COUNTRY'S LARGEST HVAC PROVIDER

Tritech's Building HVAC Products

THE COMMERCIAL HVAC EXPERT

Central Air Conditioning with Electric Chiller

SMARTD

Global Leader in Oil Free Chillers

Tritech bringing SMARTD Chillers which is the pioneer in Magnetic bearing chiller technology in The world. Saves up to 50% Chiller electricity bill over conventional chillers.

- ⦿ Water Cooled Chiller Capacity: 45-3600 TR
- ⦿ Air Cooled Chiller Capacity: 40-500 TR

Inventor of Screw Chiller Technology

Tritech bringing dunham bush screw chillers who are the inventor of screw chiller technology in the world. 125 years old chiller brand with 85,000+ installed units worldwide.

- ⦿ Water Cooled Chiller Capacity: 10-3000 TR
- ⦿ Air Cooled Chiller Capacity: 10-550 TR

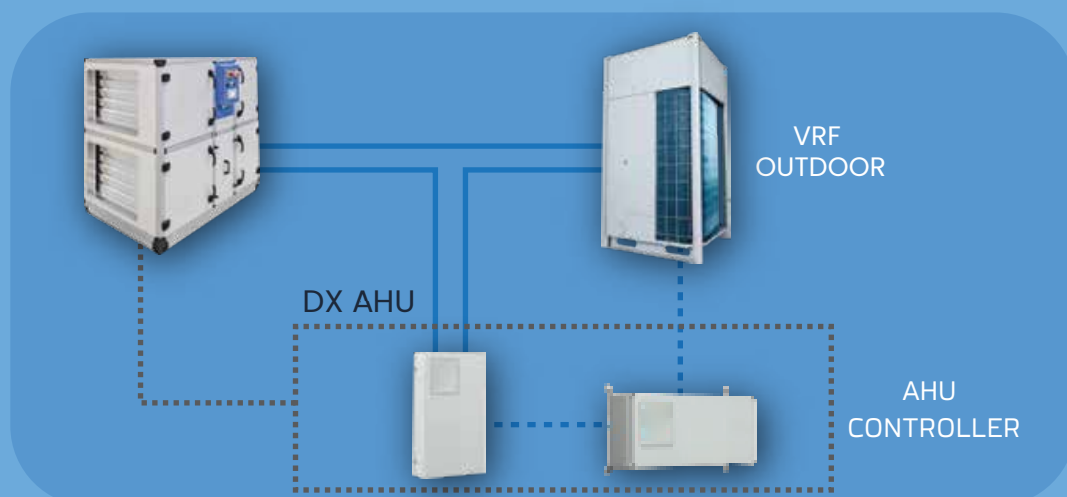

Air Specialist in Chiller Solution

Tritech offers a comprehensive range of Daikin chillers for efficient commercial operation. Daikin chillers are a testament to unmatched technical capability to power up cooling processes.

- ⦿ Water Cooled Chiller Capacity: 5-3250 TR
- ⦿ Air Cooled Chiller Capacity: 5-625 TR

DX-type AHU with VRF Outdoor Unit

DX-Cooling offers a Simple & Cost-effective solution which does not require any CHILLER or Chilled water Piping System. With DX Connection, you can connect the DX-type Air Handling Unit to any VRF or Outdoor Condensing Unit. The integrated expansion valve and AHU Controller box make this a true plug-and-play solution. With no extra configurations needed and no additional design work required by the installer.

THE COMMERCIAL HVAC EXPERT

1st & Best VRF AC Provider in Bangladesh

Midea® VRF

China's No 1 VRF brand with world's finest production facility and quality testing facility. More than 1 million running units world wide.

- ⚙️ Quadruple Backup Operation Technology
- ⚙️ Reliable choice for small to large buildings

LG VRF

The only VRF brand in Bangladesh that offers 100% 1st world made VRF products. Most efficient VRF brand with dual sensing control.

- ⚙️ Efficient Operation with Dual Sensing Control
- ⚙️ Superior Choice for Continuous Heating & Cooling

DAIKIN VRV

The pioneer of variable refrigerant volume (VRV) technology. Enables individual climate control for each zone with utmost efficiency.

- ⚙️ VRT Smart Technology for Optimum Efficiency
- ⚙️ Suitable for buildings of various sizes

Fabric Ducting System

Tritech introduces the **first Fabric Duct in Bangladesh** market back in 2008. Tritech offering **Global No 1 FabricAir** Brand with highest quality standard.

Packaged Type HVAC

Tritech providing all sort of **Packaged Type HVAC** solutions for any sort of requirements.

Home Automation

Tritech offering complete **Home Automation System** for smart solution. Tritech has the global leading home automation partnership to implement any automation requirement.

Central Water Heating

For **Central Hot Water System**, Tritech provides best water heat pump solutions for any **Hotels, hospitals or any Building**

Basement Ventilation

Tritech providing complete basement ventilation work for any building type. From small to large basements we offer customized ventilation solutions.
