Tritech Building Services Limited is one of the largest HVAC providers in the country. Since its inception in 2003, it has created magnificent examples in providing commercial central air conditioning systems. Implemented more than 700 unique commercial projects with the highest - quality standards & it has the most significant number of dedicated HVAC professionals in the industry.

Tritech provides all types of consultancy, design, supply, and installation supports to the customers. High-quality products are imported from the renowned manufactures to fulfil the need of project owners and technical people like architects, developers, builders, and consultants. A group of experienced engineers and skilled technicians are at the service disposal of the clients all the time.

Tritech uses its in-depth knowledge of the market in order to ensure a fair deal to customers. Tritech provides personalized solutions, on-schedule deliveries, and reliable quality products at competitive prices. Tritech has successfully completed various projects in the special industries like Government & Military, Hospitality, Garments & Textiles, Hospital & Healthcare, Pharmaceuticals & Chemicals, Commercial Premises, Educational and Financial Institutes, Data Centers, Call Centers, IT & BPO, Farm & Hatcheries and Residential.

Tritech designs every single project to meet its exclusive requirements and come up with the unique best solutions. All the projects are supervised and accomplished with meticulous attention by its dynamic engineering team.

OUR EXPERTISE

Tritech's success stems from its dedication to providing customers with proven professional services that simplify procedures, ensure transparency and provide cost-effective solutions. As such, we focus on delivering tailor-made designs and installations, developed with the quality-centric workmanship. The main purpose of Tritech's design and implementation of a Heating, Ventilation, and Air-Conditioning (HVAC) system is to help maintain good indoor air quality through adequate ventilation with filtration and provide thermal comfort.

HVAC systems are among the largest energy consumers in any premise. The choice and design of the HVAC system make the difference in any living and working environment. This is why we strive to design quality systems that are cost-competitive while successfully providing an appropriate quality air, lower energy costs, and easier maintenance.

Our product range covers Variable Refrigerant Flow System, Unitary & Packaged rooftop type AC, all kinds of Air Cooled & Water Cooled Chillers, AHU and FCU. Also Direct Fired & Steam Absorption Chillers, the most efficient Magnetic Bearing Oil Free Chillers and a flexible & cost effective Fabric Ducting System.

One Stop Solution for Commercial Central Air Conditioning

OUR GLOBAL PARTNERS

SMARTDT

Revolutionary Energy Savings

The global leader in magnetic bearing centrifugal chillers

DB
DUNHAM-BUSH

World's Top Commercial Air Conditioner Manufacturer

120+ years of history with 85000+ operating chillers

DAIKIN

Global Leader in Air Conditioning from Japan

With more than 100 years of operation, Daikin has sold millions of systems throughout 170 countries.

Midea

World's No. 1 Brand of Air-Treatment Products

Create the most efficient commercial & residential solutions

LG

Globally Leading Brand for VRF in LEED building

Expert of end-to-end solution with incredible efficiency

Kawasaki

World's Most Efficient Absorption Chiller

Steam fired & hot water absorption chillers save 50% energy

FabricAir

Best Quality & Designed Fabric Ducts

Supreme cost-effective solutions & easy maintenance

fisair
air humidity control

Best Air Humidity Controller

20 years of industrial expertise with Top-quality designs and manufacturing dehumidifier

SMARTD

Revolutionary Energy Savings

SMARTD is the pioneer of oil-free magnetic chiller and it offers the highest IPLV energy efficiencies and the lowest lifetime operating costs in their capacity ranges - 60 TR through 2500 TR ranges. 8500+ chillers are operating all over the world.

- ❖ The Inventor of Oil-Free Magnetic Chillers
- ❖ Manufacturer of 1 Out of Each 2 Magnetic Chillers Installed Worldwide
- ❖ Lowest Lifetime Operating Cost in the Market

SMARTD CHILLER ADVANTAGES

Magnetic Bearings

- ✓ Eliminate frictional losses
- ✓ Highest efficiency up to an IPLV > 11 - 0.3KW/TR
- ✓ Lowest starting current < 2amps
- ✓ Lowest noise & vibration
- ✓ Excellent part load efficiencies

100% oil free

- ✓ Eliminates oil system maintenance costs

One moving Part

- ✓ Assures long service life

Inbuilt Redundancy

- ✓ Multiple compressor principle

R134a Refrigerant

- ✓ Meets Montreal protocol, no phase-out.

Lowest life-Cycle Cost

DUNHAM-BUSH

**World's Top Commercial Air
Conditioner Manufacturer**

Dunham-Bush is one of the world's top commercial air conditioning manufacturers, has long been committed to offering creative solutions for the customers' requirements over its 120+ years history, in HVAC sector. It has 85,000+ operating chillers all over the world.

- ❖ Inventor of Screw Chiller
- ❖ 120 Years of HVAC Experience
- ❖ 85,000+ Chillers Operating Worldwide

Dunham-Bush is specialized in:

- ✓ Air Cooled Scroll, Screw, and Centrifugal Chiller
- ✓ Water Cooled Scroll, Screw, and Centrifugal Chiller
- ✓ Roof Top Package
- ✓ AHU & FCU

Global Leader in Air Conditioning from Japan

Daikin is a leading innovator and worldwide provider of advanced, high-quality air conditioning and heating solutions for residential, commercial, and industrial applications. With more than 90 years of operation, Daikin has sold millions of systems throughout 170 countries. Through Perfecting the Air, Daikin strives to make the world's spaces happier and more comfortable. Tritech is representing Daikin products from India, Thailand and Japan.

- ❖ Pioneer of VRV Technology
- ❖ Net Sales Over \$27 Billion
- ❖ Over 100 Worldwide Production Bases
- ❖ Sold in Over 170 Countries

World's Most Efficient Absorption Chiller

Ever since Kawasaki commercialized the world's first absorption chiller in 1968, the company has pursued various technological developments as the leading company in absorption chillers. They offers to commercial buildings, schools, hospitals, and factories, as well as for such applications as district heating and cooling, both in Japan and abroad.

- ❖ Inventor of the Absorption Chiller
- ❖ Highest (50%) Annual Operational Efficiency
- ❖ 100% Japanese Made Product

Some views of fabric ducting system:

FabricAir

Best Quality & Designed Fabric Ducts

FabricAir Ducts offer the ideal solution for cooling, heating, ventilation and refrigeration applications. This solutions are tailor-made to fit the customer's exact needs. Beyond the considerable cost savings and superior product quality, FabricAir ducting offer improved indoor air quality and continues comfort for the user.

- ⬢ Fastest Installation Time
- ⬢ Reduces the Cost of False Ceiling
- ⬢ Perfectly Matches With Interior Design

Benefits

- ✓ Lightweight Solution
- ✓ No Condensation Problems
- ✓ Draft Free Air Distribution
- ✓ High-Velocity Product Cooling
- ✓ Better Temperature Control
- ✓ Washable & High Hygienic Level
- ✓ Easy Maintainance
- ✓ Long Service Life
- ✓ Tailor-Made

Best Air Humidity Controller

LOW DEW POINT · HIGH QUALITY

A large number of industrial materials and processes require dry air:

- ❖ FISAIR supplies a range of desiccant dehumidifier series adapted to specific applications
- ❖ Each series is equipped with the highest quality components and a design centred on simple maintenance and low energy consumption

DFRA series

a wide range of Solutions

Highly reliable units with drying capacities from 3 to 42 kg/h and dry air flows from 450 to 6,000 m³/h
